Carnegie Mellon University

The idea

Anyone - Anywhere - Anyhow

- Empower everyone to control their expenses responsibly.
- Bring your account/financial manager everywhere.
- Customize your expenses with custom expense types and accounts

"Romance without finance is no good."

"Beware of little expenses. A small leak will sink a great ship."

"Being in control of your finances is a great stress reliever."

"It's not about how much money you make. It's how you save it.

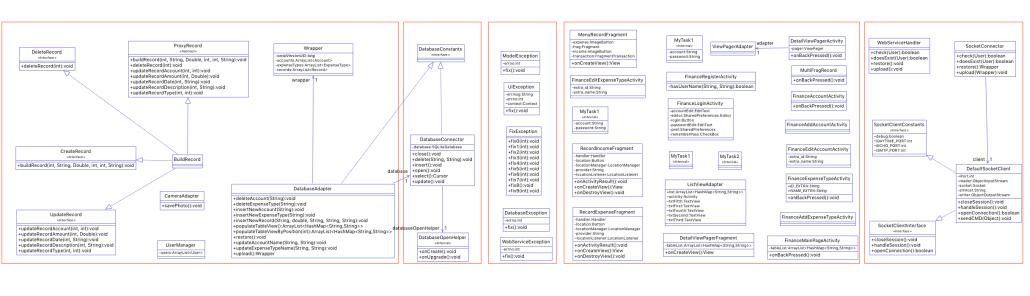

Challenges

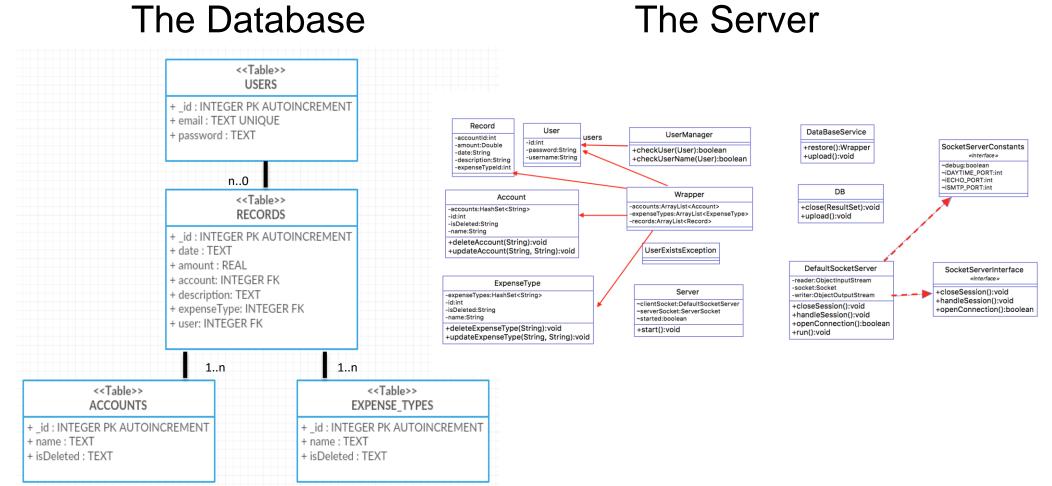

The design was one of the greatest challenges we faced.

The Model

"The Database

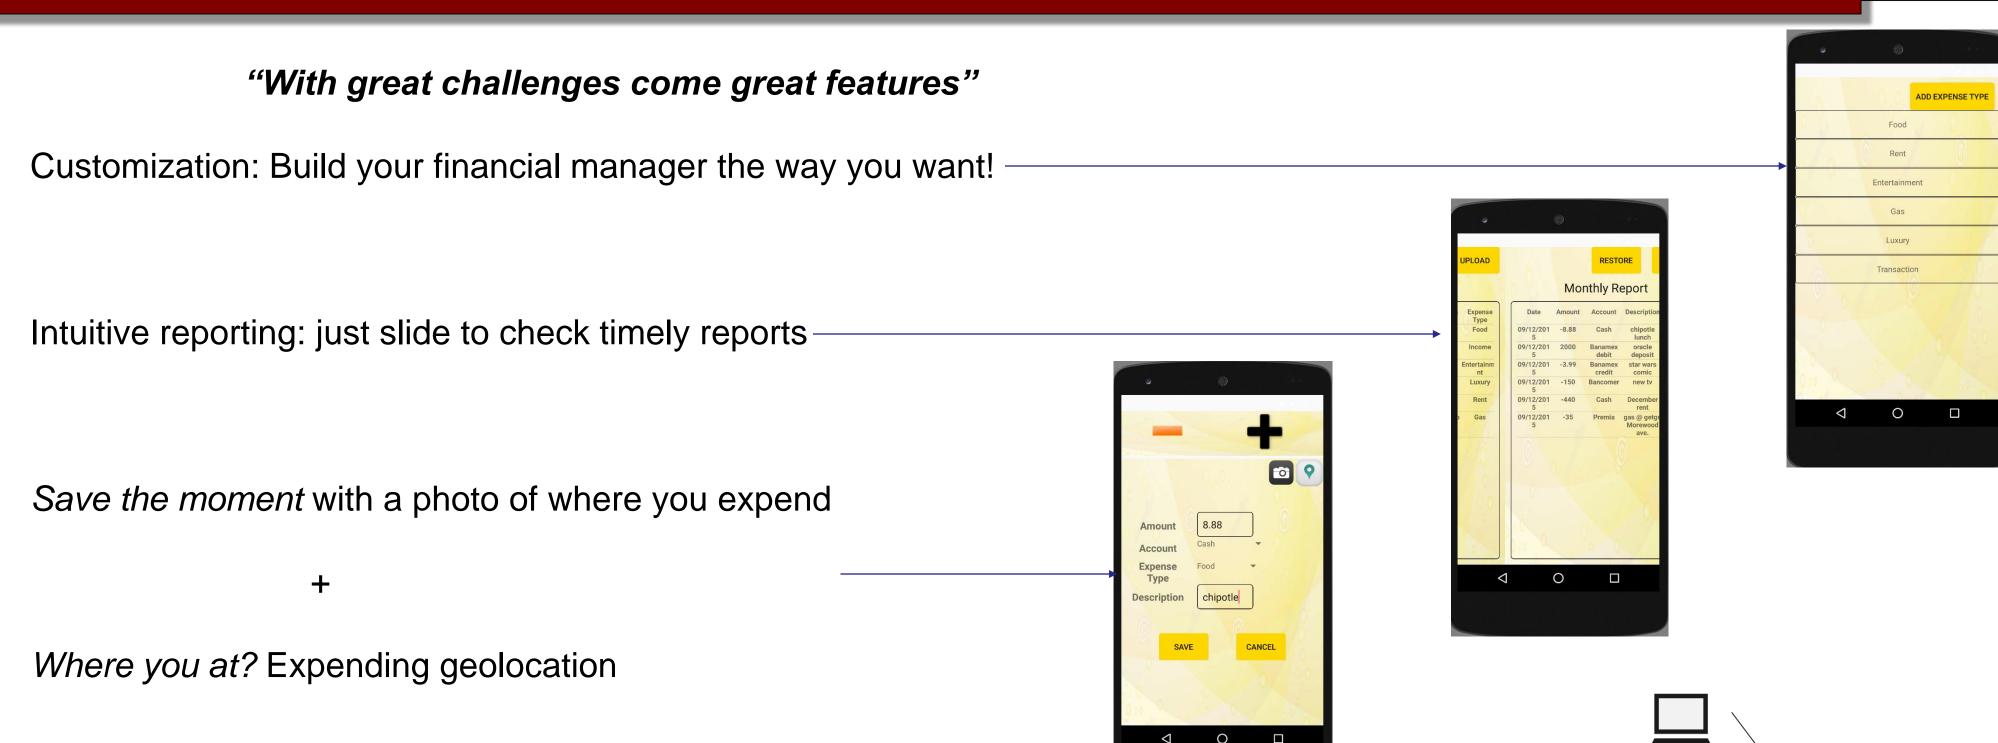

"The Datab

Once the design was completed, our notable features mentioned below were the great challenges that we faced.

Notable Features

Changing device? Not a problem. Centralize Server-based account system _
